

APLINK LC Series

High Resolution Inkjet Printing system

Aplink LC Series, high resolution solvent based or oil based inkjet printing system, specifically developed for barcodes, images and text printing on all type of surface, fulfilling the GS1 Regulation (EAN International) in barcode printing.

The Amlink LC Series prints up to 40 messages per minute providing an excellent inkjet system suitable to hard environmental with a variable volume of production, capable to print variable data obtained from an external database due to a powerful software developed by UBS (UBS Labman & UBS Label CS).

The Amlink LC Series are offered in two different models, the APLINK LC-SV, solvent based Ink projected to print on non-porous surface and the APLINK LC-AT, oil based ink concretely developed for porous surface printing, both manufactured to meet particular application demands.
